LuXout Shades Controller Options

LUXOUT CONTROLLERS

The 5 Channel Flush Mount Controller offers the ability to control up to 5 groups of shades. Any single channel or all 5 channels can be selected for operation at any time. Easy installation without the need to cut into the wall or perform electrical wiring.

5 Channel

| Tabletop Pedestal | Flush Mount | Hand Held |

LuXout Shades has two in wall options available. Choose from either a 1 or 2 channel controller.

1 & 2 Channel In Wall

| One Channel | Two Channel |

The Multi-Channel Controller is the latest wireless controller to LuXout Shades and is compatable with the new ARC™ protocol. Available in white, the controller also features levelling control along with the ability to hide unused channels for easier scrolling and selection.
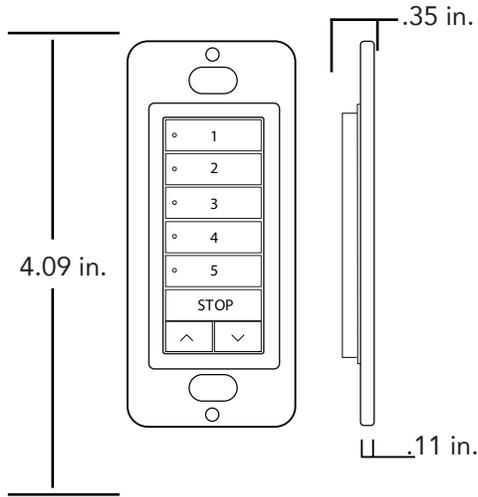

Multi-Channel Controller
