LuXout Low Voltage Power Supplies

12V 4A DC Single Plug-In Power Supply for Low Voltage Motors

Quick Details:

- Output Voltage: 12V
- AC Plug: US
- Input Voltage: AC 100-240V 50/60HZ
- Output Current Range: 0.1A - 10A
- Material: ABS + PC
- Certification: UL, FCC, GS, CE, EMC, CB, FCC, ROHS

Conditions:

- Input voltage: 100-240V AC
- Line frequency: 50-60Hz
- Efficiency(at 100% load):
- Ripple: $\leq 1\% \cdot V_o$
- Output Voltage: 12V
- Output Current: 4A
- Temperature range: Operating temperature: 0C ~ 45C Storage temperature: -20C
- 70C Humidity < 65%

Protection:

- Short circuit protection
- Over voltage protection
- Over current protection
- Reverse polarity connect protection

Safety & Approval:

- Reached Insulation class: II
- Meet Electrical safety: EN60335, IEC60335
- Meet EMC standards: EN55014-1, EN55014-2
- Archived: CCC, CE, ROHS, FCC, PSE, KC, CB, UL, LCD, SAA approvals

LuXout Low Voltage Power Supplies

LUXOUT LSPP-29A-12V-18S

The Output Power Supply Panel is a surface mount plug in power supply for use with 12 volt powered shades. LSPP-12V-29A-18S simplifies the wiring and organizes installations that require multiple power supplies.

FEATURES

- Up to 18 LuXout Shade capacity.
- Easy power supply for whole house D.C motorized shades.
- Each shade fused individually for maximum protection.
