LUXOUT RECHARGEABLE BATTERY MOTORS

LUXOUT RECHARGEABLE BATTERY MOTORS

- Simple limit setting and adjustment
- Favorite position
- 3 operational speed settings available
- 2 way RF communication
- Rechargeable built in Li-ion battery
- Over 500 up / down operations on a single charge (based on recommended maximum shade sizes)
- ARC™ protocol featuring efficient programming, battery power conservation and bi-directional communication

LS-50-RB
(75 sq. ft.)

LS-100-RB
(100 sq. ft.)

LS-150-300-RB
(150-300 sq. ft.)

The manufacturer of this product wants
to make recycling easier and
encourages consumers to recycle
damaged electrical products
appropriately.

This is a non-certified product and equipment may not meet all the
general regulatory standards of the equipment described in the following
table:

2014/531/EU	RoHS Low Voltage Directive
2014/53/UE	The Electromagnetic Compatibility Directive
2014/54/UE	RETT Directive
EU 2014/53	Radio Equipment, Radio Equipment and Wireless Systems
2011/65/UE	RoHS Directive

Statement Regarding FCC Compliance

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, as stated in Part 15 of the FCC Rules. These
limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,
uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful
interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful
interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to
try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to a power outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the
equipment.
